

**MACMAT® HS**

**HIGH PERFORMANCE STEEL REINFORCED GEOMATS**

MacMat® HS is the latest generation of high performance geomat made from the extrusion of a polypropylene geomat on to Maccaferri Steelgrid®. The reinforcing hexagonal steel wire mesh has mechanical characteristics greater than those in EN 10223-3. The steel wire and the steel wire ropes are protected with a Zn-Al5% coating in accordance with EN 10244-2, Class A. The galvanised wire and ropes are also available with an extruded polymer coating for additional protection. The mechanical performances of the product in terms of tensile strength and puncture resistance are the same as Steelgrid® System.
